Fleet Driver Safety Handbook - Rules for Company Vehicles

Drivers aged 21 and over. A driver aged 21 or over commits an offence if their blood alcohol concentration is 0.08 percent or higher. A first offence leads to a licence revocation of at least six months and a fine.

Seat belts. Seat belts must be worn by every occupant of a fleet vehicle at all times, including short trips between company sites.

Phones. Handheld phone use while driving a fleet vehicle is prohibited. Hands-free calls are allowed only when the vehicle is stationary.

Drivers under age 21. Drivers under age 21 are covered by the zero tolerance rule. A blood alcohol concentration from 0.02 to 0.07 percent leads to a six month licence suspension. A second violation leads to revocation for one year.

Incidents. Any collision involving a fleet vehicle must be reported to the fleet coordinator within 24 hours, even if no one is injured.

Lights. Headlights must be switched on whenever windscreen wipers are in use.

Inspection schedule

Vehicle class	Check	Interval
Van	Brakes	12 months
Truck	Tyres	6 months
Car	Lights	12 months
